

Major dust sources for KTD1a & KTD1

- Project related:**
1. Unloading of C&D wastes in the site
 2. Vehicles movement in the site

Non-project related:

1. Construction activities at the nearby construction site
2. Road traffic along Shing Cheong Road & Shing Fung Road

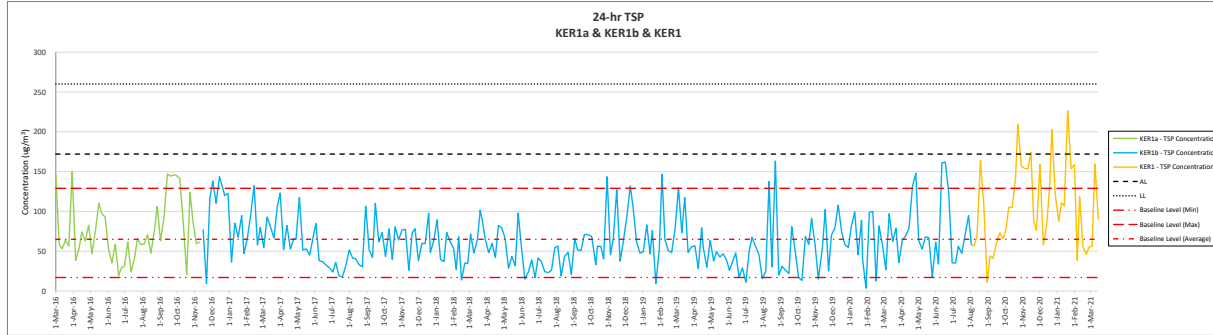

Major dust sources for KTD2a & KTD2b & KTD2c

- Project related:**
1. Unloading of C&D wastes in the site
 2. Vehicles movement in the site

Non-project related:

1. Construction activities at the nearby construction site
2. Road traffic along Kwun Tong By-pass

Major dust sources for KER1a & KER1b & KER1

- Project related:**
1. Unloading of C&D wastes in the site
 2. Vehicles movement in the site

Non-project related:

1. Construction activities at the nearby construction site
2. Road traffic along Cheung Yip Street

Notes:

Weather Range:

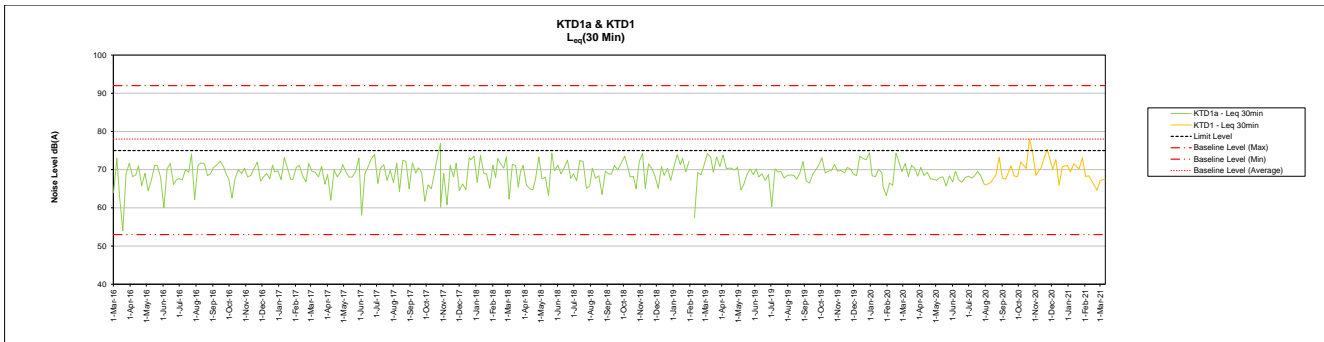

From rainy to sunny

Major activities in the reporting period:

- Carrying out pre-drilling;
- Construction of guide walls and D-walls;
- Construction of Socketted H piles;
- Temporary utility diversion;
- Excavation and Earth Lateral Support (ELS) construction for Supporting Underground Structure (SUS) and Subway B;
- Construction of Subway B;
- Demolition of Radar Tower;
- Construction of temporary road diversion of Shing Cheong Road;
- Construction of District Cooling System Works;
- Implementation of Temporary Traffic Arrangement (TTA);
- Construction of Socket H piles;
- Excavation and Earth Lateral Support (ELS) construction for Supporting Underground Structure (SUS);
- Construction of Tunnel structure;
- Construction of drainage works;

- Installation of temporary cut-off wall;
- Temporary diversion for drainage works;
- Temporary diversion for CLP cable at CH6+560;
- Temporary diversion for sewage rising main;
- Setup of temporary barging point;
- Excavation of drainage pipe and manhole;
- Seawall Modification Works;
- D-wall construction works;
- Guide wall construction works;
- Construction of socket H pile;
- Pumping test for Zone 3;
- Excavation and EIS construction;
- Installation of dewatering, observation and recharging wells;
- Pumping test

- Construction of SUS structure
- Construction of road base and road pavement
- Utility laying
- Demolition of the barging point.
- Landscape works – Irrigation system, tree and shrub planting
- Laying Cable and Construction for Road Lighting

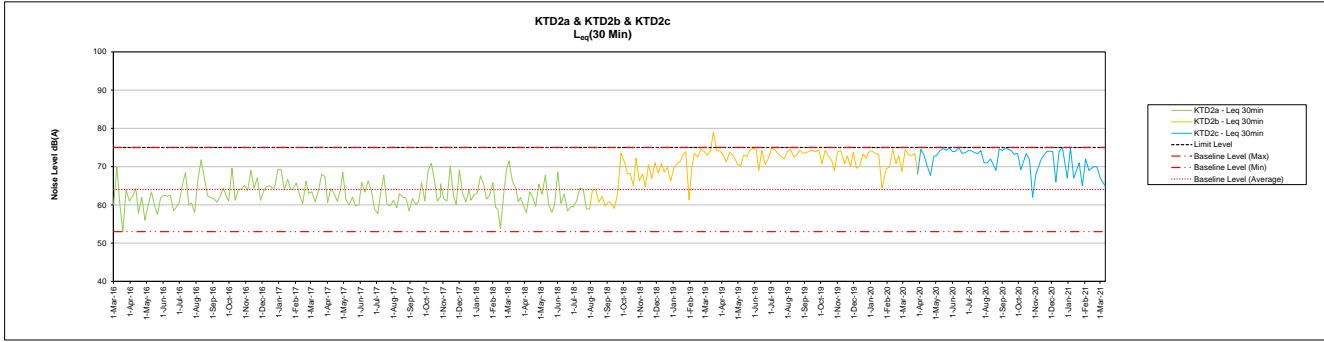

Major noise sources for KTD1a & KTD1

Project related:

1. Unloading of C&D wastes in the site
2. Vehicles movement in the site
3. Noise emission from plant & PME

Non-project related:

1. Construction activities at the
2. Road traffic along Shine Cheone Road & Shine Fune Road

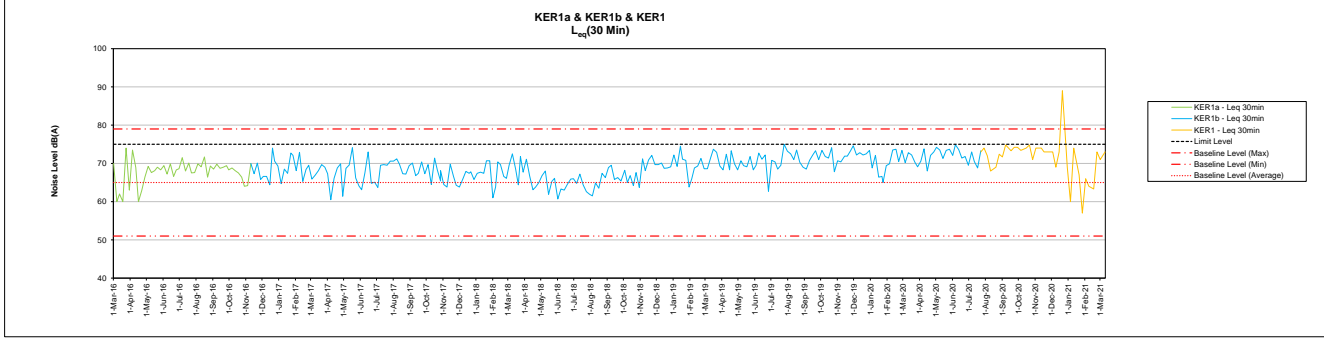

Major noise sources for KTD2a & KTD2b & KTD2c

Project related:

1. Unloading of C&D wastes in the site
2. Vehicles movement in the site
3. Noise emission from plant & PME

Non-project related:

1. Construction activities at the
2. Road traffic along Kwun Tong By-pass

Major noise sources for KER1a & KER1b & KER1

Project related:

1. Unloading of C&D wastes in the site
